CAREER OBJECTIVE

Aspiring QA Analyst with a strong background in software development and testing, seeking to leverage coding expertise and problem-solving skills in quality assurance roles. Committed to ensuring high-quality software through thorough testing, defect tracking, and user experience evaluation. Eager to contribute to a collaborative team environment and support the delivery of reliable applications.

WORK EXPERIENCE

QA Analyst   **Nov 2025 - Present**
AI NEXT STUDIO, Mumbai
- Design, develop, and execute comprehensive test plans and test cases for web and mobile applications
- Perform functional, regression, integration, and user acceptance testing (UAT)
- Identify, document, and track software defects using bug tracking tools (JIRA)
- Collaborate with development teams to ensure timely resolution of issues
- Conduct API testing using Postman to validate backend functionality
- Participate in Agile/Scrum ceremonies including daily standups and sprint planning
- Create detailed test reports and provide quality metrics to stakeholders
- Ensure adherence to SDLC and STLC best practices throughout the project lifecycle

Software Developer and Tester   **Apr 2023 - Nov 2025**
Bahar Infocons Pvt Ltd, Mumbai
- Designed, coded, tested, and maintained software applications ensuring user requirements were met
- Collaborated with cross-functional teams to document and optimize code
- Performed UI testing, mobile testing, and application testing
- Debugged and resolved software issues to improve application performance
